

## Northern Fibers Retreat Instructor Exhibit 2016

### Space

The exhibit will take place in the Art Colony's Founders Hall, a 40-foot x 27-foot space with a lofted ceiling, white walls, wood floors and lovely northern light. It is locked and secure at night and a staffed office is right next to the space during the day.

### Display

The Art Colony has tables, podiums, and lots of wall space! If you want to exhibit a hanging item, it is easiest for us if it is wired similar to a painting or has about seven inches wide of string/rope/wire rigged on the back so we can fit it onto our hanging system. We use the Walker System to hang work on the walls.

Depending on interest from instructors, three to five pieces will be able to be displayed.
